Dear Sir:

STATEMENT OF SUBSTANCE OF INTERVIEW

On April 10, 2002 Applicant had a telephone interview with the Examiner concerning this application.

Applicant explained the invention of the application, as reflected in the independent claims, with reference to figure 2 of the specification.

The Examiner suggested that Applicant consider each of US5,423,594 to Hancock; US5,573,303 to Doerner; and US5,340,194 to Neumuller, references not applied by the Examiner in rejecting the claims in his first office action. The Examiner asked that Applicant call back within one day to indicate whether Applicant would make any amendment in light of these references.
